"Thank you again for coming out to Hammond. The students LOVED the presentation. Our principal and PTA were also very pleased with the presentation and how engaged the students were.”

- Michelle Ranker, 5th Grade
Bring the Conservancy to You!

Howard County Conservancy Outreach Programs—Details

Monarch Butterflies: Grade 3
An interactive program that discusses the Monarch Butterflies’ physical traits, life cycle, survival strategy, behavioral traits and more! Using props, maps and pictures participants will follow the butterflies as they travel the globe and learn about variations in inherited traits with the white morph monarch. Program aligns with HCPSS: 3rd grade, Quarter 4 Life Science Curriculum and selected NGSS standards: 3-LS1, 3-LS3 and 3-LS4.
$125 per session

Chesapeake Bound: Grades 2-5
Explore the impact humans have on animals and the environment. Meet one of the Conservancy’s Diamondback Terrapins, and learn about their unique features, adaptations and habitat requirements. Also discover ways to help protect their home in our watershed the Chesapeake Bay. Program aligns with HCPSS: 4th grade, Life Science Curriculum and selected NGSS standards: 2-LS4, 5-ESS3, 3-LS3, 3-LS4, 4-LS1, 4-PS4, and 5-LS2.
$150 per session

Mapping Maryland Outreach: Grades 3-4
An interactive program using our 14’ x 21’ Maryland map that discusses the geographical history of the state of Maryland, mapping, environmental resources, human impact on the land and more! Using props, maps and pictures, participants will journey back to the 1700’s when the town of Elkridge was first founded in order to understand how present day Howard County came to be. Program aligns with HCPSS: 3rd grade Q2; 3rd Grade Q1; 4th Grade Q2 social studies.
$125 per session

Owl Outreach - Single or Double: All Ages
Meet the Conservancy’s non-releasable Barred Owl, Eastern Screech Owl or both! During a general program, participants will learn about the unique features and adaptations, hunting techniques and habitat requirements. Additional owl programs are available by request that align to specific HCPSS standards: 3rd grade, Quarter 3: Plant and Animal Survival, 4th Grade, Quarter 2: Waves and 5th grade, Quarter 4: Matter and Energy in Ecosystems. Selected NGSS standards: 3-LS3, 3-LS4, 4-LS1, 4-PS4, and 5-LS2.
$125 per session

Chesapeake Bound: Grades 2-5
Explore the impact humans have on animals and the environment. Meet one of the Conservancy’s Diamondback Terrapins, and learn about their unique features, adaptations and habitat requirements. Also discover ways to help protect their home in our watershed the Chesapeake Bay. Program aligns with HCPSS: 4th grade, Life Science Curriculum and selected NGSS standards: 2-LS4, 5-ESS3, 3-LS3, 3-LS4, 4-LS1, 4-PS4, and 5-LS2.
$150 per session

Herptiles and Habitats: Grades 2-5
Learn about the unique features, adaptations and habitats of different reptiles and amphibians in Maryland and meet two of the Conservancy’s herptiles. This program will also cover similarities and differences between reptiles and amphibians, life cycles, predator prey relationships and the food chain. Program aligns with HCPSS: 4th grade, Life Science Curriculum and selected NGSS standards: 2-LS4, 5-ESS3, 3-LS1, 3-LS3, 3-LS4, 4-LS1, 4-PS4, and 5-LS2.
